**Web Based Blood Bank Management System for DebreMarkos Town**

**DebreMarkos Blood Bank Services**

DebreMarkos blood bank is one of these and it was established by the federal government and Amara regional state since in 2005 E.C This organization Provide blood for 14 client hospitals, these client hospitals Receive blood by full filling certain forms and getting permission from blood bank's manager.

This organization was begun giving small capacity of blood service. The aim of the organization is to provide efficient service to user, to increase the capacity for providing blood to the recipient, to increases the number of blood donors by teaching the society and facilitating blood donating services.

From time to time the capacity of this bank is increasing but the bank was working with manual system and this makes the employee to fail with data redundancy and erroneous data storing. Generally this organization has established to save the life of
